**underlining** that protracted conflicts in the GUAM area constitute the main threat to regional and international peace, security and stability and a threat to democracy and economic development;

**considering** that the unstable character of supply of energy resources creates a threat to economic development of the region and difficulties for the population,

**call on** the international community to support the GUAM States in facilitating a peaceful resolution of the conflicts in the GUAM area based on norms and principles of international law, the fundamental ones being the principles of territorial integrity and inviolability of borders;
